HAIRMAN JAMES K. JONES AND JOHN C. SHEEHAN ON DEMOCRATIC

Jones Says the Democratic Path Clearly Leads to Bimetallism and There Should Mr. Sheehan Says:---"It is of Vital Importance That All Democrats, Regardless of Be No Turning Aside --- Party Wiff Attract Aff in Sympathy With It.

> United States Senate, Washington, May 22.

Editor New York Journal:

The conditions of distress existing all over the country are emphasizing more and more every day the fact that the great overshadowing issue before the American people is that of monetary reform-bi-

The Democratic party unequivocally settled its position upon this question at its National Convention in July last. This will remain the leading issue in American politics until it settled, and settled

The present effort to force upon the country the most extreme measure of tariff taxation ever proposed, more extreme, even, than the McKinley bill, will meet solid Democratic opposition, as will also all other Republican efforts to build up trusts and other dangerous combinations of capital.

There is but one Democratic party, and in its struggle along the lines indicated above it will nat-

urally attract to itself all elements in sympathy with its purposes, while those opposing its principles will as naturally go to the Republicans.

The past is behind us. The Democratic party should keep its face to the front, resolutely assume its great responsibilities, and, without variableness or shadow of turning, enact its pledges into

The Journal has won for itself a warm place in the hearts of Democrats by its manly course in the past, and its continued efforts in the same direction will be of great service to the cause and be appreciated by Democrats everywhere.

JAMES K. JONES, United States Senator from Arkansas.

Editor New York Journal:

Probably the most important election that has occurred in this part of the country in many years will take place in November next. The result of it will determine whether the Democratic party, which in reality stands for all that is dear to the American people, and has proven most serviceable to the people of the city of New York, shall prevall in the government of this great municipality.

In the territory which now comprises the city of New York there are at least one hundred thousand more Democrats than Republicans. It is, therefore, of vital importance that all Democrats-regardless of past differences of opinion-unite together for the purpose of securing to the people a Democratic administration of their public affairs for the next four years.

The evident intent and object of our enemies is to divide the forces of the Democratic party and to inject into this campaign issues that are entirely foreign to it. Having made the issues on which this contest should and will be fought out, they now seek to entirely avoid them.

The misgovernment by the Republican party during the past three years, and the outrageous and oppressive enact ment of a Republican Legislature, canont be put in the background. The fact i sthat every act of the Republican party is hostile to the best interests of the people, and seeks to impose upon them burdens that bear them down. The questions that most affect the people at this time are: "Home Rule for the City and Economical Administration of Our Public Affairs," and that protection of the personal liberty of the citizen that is guaranteed by the Constitutions of the State and nation.

Past Differences, Get Together. . . I Look to See the State Carried

by the Democracy for the First Time Since 1892.

This election will be of the utmost importance to every New Yorker. We are to elect a Mayor, Comptroller Sheriff, County Clerk and other officials. It is purely a local election, and there will be no overshadowing of those questions that directly affect our citizens. These questions must be answered, and the men whose duty it is to reply to them will find that they will be forced to do so.

The infamous Legislature, now defunct, sought to load New York to the point of breaking with steals, schemes and games that were only intended to plunder the city for the benefit of the State. Our Republican rulers have sought to make the taxpayers of this city pay the expenses of the entire State government. The voters will go to the polls and show their resentment of this imposition. Reports received from all sections of the greater city are of a most encouraging nature, and force the conviction that the majority of the Democratic candidate for Mayor of Greater

My experience in politics is of several years' duration, and I must confess that never have the prospects of Democratic success been so bright as they are to-day. The feeling of indignation against the Republican party is not confined to this locality. From cities and towns all over the State come the most encouraging reports, and I look to see the State carried by the Democracy for the first time in some years. The people are determined to punish the Republicans for their misdeeds, and will sweep them from power at the first opportunity.

I am pleased to hear of the formation of the Democratic Union, which took place on Thursday night. This action indicates the spirit that actuates all Democrats this year. They are for united party action and emphatically opposed to being ruled by non-residents. The cry of "New York for New Yorkers" can be heard all over, and it will swell into JOHN C. SHEEHAN, a grand triumphal chorus before Election Day arrives.
